American Wild Flowers

COLORING BOOK

RENDERED FOR COLORING BY

PAUL E. KENNEDY

Displaying the beauty and variety of America's most popular wildflowers, naming and locating each of the species, this most unusual book is intended for coloring. Redrawn from the original Smithsonian Rickett plates by Paul Kennedy, well-known illustrator of children's books, each of the 46 renderings is ready to be colored as realistically (like the cover illustrations) or as imaginatively as you may choose. 48pp. 8¼ x 11. Paperbound.
